

Get ready for flu season!

Tools for the correct diagnosis.

As the symptoms and signs of influenza, COVID-19 and other respiratory infections somewhat overlap, the correct diagnosis of the infection is critical.

Aidian offers a range of respiratory panels for the molecular diagnostics of influenza, COVID-19 and other respiratory infections. ELITech's ELITe InGenius® platform together with the SARS-CoV-2 PLUS (SARS-CoV-2, Flu A, Flu B, RSV) and the Respiratory Viral PLUS (Flu A, Flu B, RSV, hMPV) Elite MGB® panels offer a fully automated sample to result solution. Mikrogen's *ampliCube* Respiratory Flu & SARS-CoV-2 assay is a flexible solution for fast differentiation of SARS-CoV-2, Flu A and Flu B with one test. Mikrogen's Pathogen group Respiratory F contains a set of panels for the detection of SARS-CoV-2, Flu A, Flu B and RSV by combining the *ampliCube* Coronavirus SARS-CoV-2 test with the *ampliCube* Respiratory Viral Panel 5. All ELITech's and Mikrogen's respiratory panels are fully compatible with open platforms.

For point of care molecular COVID-19 testing Aidian provides Qlife's egoo.health system, which uses Aidian's proprietary SIBA® technology and disposable egoo capsules for the molecular analysis of SARS-CoV-2. The egoo.health system comes with a very small device and delivers highly accurate results in 30 minutes with less than two minutes hands-on time.

A swift diagnosis ensures the right treatment and minimal spread of the infection.

Respiratory panels	Product no.	Order. no.
ELITech ELITe InGenius	INT030	153717
ELITech SARS-CoV-2 PLUS ELITe MGB Kit	RTS180ING	155028
ELITech Respiratory Viral PLUS ELITe MGB Kit	RTS160ING	155030
Mikrogen <i>ampliCUBE</i> Respiratory Flu & SARS-COV-2	50163 / 50173 (LC)	155033 / 155034
Mikrogen Pathogen group Respiratory F (including RSV)	59976 (50143 & 50152)	155035

SARS-CoV-2 tests	Product no.	Order. no.
ELITech SARS-CoV-2 ELITe MGB Kit	RTS170ING-96	154715
COVID-19 Plus Real Amp Kit	IFMR-45	154600
ELITech SARS-CoV-2 Variants ELITe MGB Kit	RTS171ING	154833
ELITech SARS-CoV-2 Extended ELITe MGB Kit	RTS172ING	154987
Mikrogen <i>ampliCube</i> Coronavirus SARS-CoV-2	50143	154612
Mikrogen <i>ampliCube</i> SARS-COV-2 Variants	50145	155039
Mikrogen <i>ampliMelt</i> SARS-COV-2 Variants 1	50147	155040
Mikrogen <i>ampliMelt</i> SARS-COV-2 Variants 2	50141	155041
Qlife Egoo instrument	E78852	154845
Qlife SARS-CoV-2 capsule, 10 tests	E48364	154843
Qlife SARS-CoV-2 Lysis buffer, 50 pc	E70464	154844
